Volume IV Issue III

The prez sez

It was a gray and storm morning, people were moving quickly to avoid the imminent rain, and the Prez stood waiting for his club to arrive. He knew that there were hazards out on the highway, but he also knew that breakfast was waiting inside and his club would soon be there.

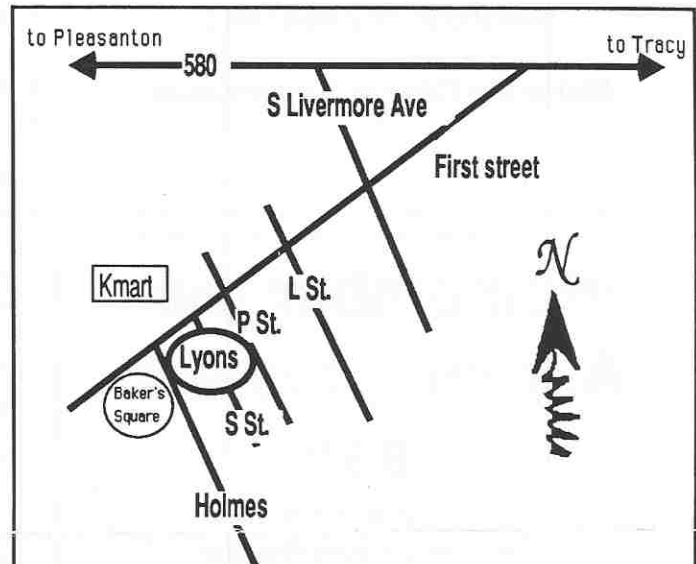

The Hungry Hunter gave us a private area for our meeting and the food was well prepared and quickly served. After breakfast was over and the informal gossip session slowed down, we settled down to the matter of our club meeting.

I'm happy to report that, in spite of the clouds and chilly wind, eighteen members and guests attended the meeting. We had the pleasure of seeing Joe Finney this morning (it's been a long spell, Joe: and talking with him about the clubs activities.

Bud Deetz brought two guests, Mike Walton and Dick Kesterke, who we were pleased to introduce. Mike has attended other meetings with our club and also was at Escanaba. Dick isn't a member yet, but I hope he will decide to join us as a regular, and in fact, he didn't even know that we existed until he ran into Bud the other week. That's how we can get new members, folks. Whenever you see another BMW rider; talk to him/her and give out a club card.

Colleen hood was recently involved in a car accident but was not seriously injured. Wet road surface and the other drivers' inattention combined to give Colleen an Excedrin headache and a totalled-out car. This brings me to one of my pet subjects; the need to always drive in the defensive mode.

I was taught how to ride by three professional racing motorcyclists and each of them told me that when you ride a motorcycle, you and the cycle become invisible. Nobody else will see you, except another cyclist or the cops. Since I learned to ride before I learned to drive cars,

**May 21 meet at Lyon's Coffee Shop in Livermore then ride to Lick Observatory, Mt Hamilton
Ride starts 9:30**

**Ride ends at El Molino Mexican Restaurant in Pleasanton
Board Meeting to follow at Ron & Loretta Stinke's house**

I have always kept that lesson in mind when I get on the road. I take all of my precautions and then I take the other guys', too. I always have an escape path just in case somebody doesn't see me on the road.

Remember, you are fragile and can't buy spare parts for yourself. Drive defensively because you are important to your families and to us.

Ride safely
